DETAILED ACTION

This office action is a response to Applicant's amendment submitted October 16, 2007, wherein claims 2 and 24-36 are cancelled.

It is acknowledged that this application is a national stage entry of International Application No. PCT/EP04/52900, filed November 10, 2004, and claims priority to Italian Application No. FI2003A000288, filed November 10, 2003.

Claims 1 and 3-23 are pending in this application and are examined on the merits herein.

In view of the cancellation of claims 2 and 24-36, all rejections made with respect to those claims in the previous office action are withdrawn.

In view of Applicant's amendment submitted October 16, 2007, the objection to claim 20 for the informality "1,5 moles" is withdrawn.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1 and 3-23 are allowable as being drawn to a novel process for the production of 1-chloro-3,5-di-O-acyl-deoxy-L-ribofuranoside derivatives. The closest prior art, Zhang et al. (Nucleosides & Nucleotides 1999, 18 (11 & 12), 2357-2365, PTO-1449 submitted December 19, 2005), does not teach or fairly suggest the claimed method of making the O-methyl-2-deoxy-L-ribofuranose of formula (V).

Applicant's amendment submitted October 16, 2007 is sufficient to remove all rejections made in the prior office action as discussed above and to place the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
